PORTLAND, PRIDAY, DEC. 4, 1885

Who A to be president of the senate? This prestion s now attracting a great deal of altertion. It has a high possible importance, wassed view of the fact that at act of congress, passed view of the land and a control of the first field of the president of the "field of takes, the president of the "field of takes, the president of the senate, or, if there is none, then the speaker of the house o' nopresentatives, for the time being shall not as president until the president until the president and th e d-schility is removed or a president elecshould become vacant there would be an await ward betreenium. The constitution itself makes no provision for the encession in 125 of death o mability of both president and vespresident, but leaves the matter wholly is calere. The laws which congress has enacted

carres in "congress may by haw provide for the case of removal, death, resignation or in bhility poth of the president and vice president, declaring what officer shall then act as president." Beyond the very imperfect statute cited above, it likes here there in this direction. refinite laws to meet the probable energence.

Mr. Cheeland is a strong man not yet sense of age and in excellent Lealth, and the s fortunately small reason to tear that he wil president of the sensis, the possibility of the succession to the presidency of the United States is much thought of. The republicans have a in the tringing of the democrate have a majora, in the house. In terdinary course the senate may be expected to elect a regulifican president, and the house a deaccratic speaker were the vice president still living the senate

he president of the senate to the presidency of the Unstell States, it would be a proper thing to vill is done. Party action on both sides will lik ly to take its usual course. It has not equilican party to succeed to the execu ind it is difficult to see what be unfit it would de the fruit having an supportunity merel, to keep the greediment going in a perfunctory way litt moth- election can't be below that the law stance only a few months could inter ene, A soy contingency till a jother eletable It is to tenate that assurance of life to President Clevels in its so strong is to make this phase of the creation is no electron of president of the sensite part of manager and the sensite part of manager and the mont. The country expects of the best of the president to

JE. II RELIGITAT LEGISLATURE

On tenent next the legislature of Washing ten to: x y will meet at thy uppa. I is a posed in Louncil of twelve man of whom eight the repullicans, and an Assembly of puller ri The westen is liquited to sixty days Legis topn in Washington territory is much quiste and hossester than in Dregon. The po-litical in liminchi interests which do so much to example and corrupt legis atton mour state are happy lacking in the fortions, and the reinit is seen in more orderly and creditable pro-

feetivals or price of pures. IONO KELL", M. D. Savings Bank Bullding Brown, Bischars of the Brown, Ear, 150 anitation of Pre-co-ri —I rise, not to discuss any question the city under consideration, as there appears to be at this moment nothing before the conjemitot, but I desire information, and presume other understood of the conjemitot, but I desire information, and presume other understood of the conjemitot, and presume other understood of the conjemitot, attending to committee work, would desire, like me, the best of the proceedings thus for factor of the committee of the proceedings thus for faken. With the last few minutes allusion has seen insect to the become like on mittee and the committee work would be that the committee were appointed, would be flad to be informed as to the nature and duties of those committees. We mark make by the chair just now leads not be infaction of knowing details the work of the "miscalin of knowing details and we desire the miscalin of knowing details in infaction of knowing details have been done (In the president, the seriestry read is minutes of the presedent, the seriestry read is minutes of the precedings to the line of, he committe the index of the committee. If is acceeded how, lift, it seldent, it may be out of order for me to in read for the road of the consention while I make some suggestions, which may be received inder that order of business denotricined "the good of the cause" hourself of the work for the committee, if it serves the prince of its reaction, will be the collection and classifier. But have you made any out to while the collection of information when other of the work of the ended the interest in the single prefer to the effective set of this information when other of To whom is this romatice to make the read of outlined to the indication to be on obtained. How is it to be to utilize it is an an and to work in the content of the cause it is to be to utilize it in any the content of the consention of the content of the consention of the consent of the consent of the Mr Present -I rise, not to discuss any

biling of L.S. body of Typresentative men from all sections of the country direct y affected by the great questions presented by the memorial you have the adopted, if these statements are not to be presented in some authent taitive for 111 that body which a one can give the relief domented.

The subject to which the deliberations of the convention have been directed are of the most pressing importance. I have no recollecting hat any question of equal magnified and uniquency has forced used upon the attention of the people of the northwest exast for fifteen or syen twent; years past. In the memorial with you have adopted you have said to compress, in referral terms, that the area of country t justical competition in the carrying trade can be secured only by the opening of the Columbian series for exaging in the conventions of the removal of which can a number of the carrying trade can be secured only by the opening of the Columbian series are the carrying trade can be secured only by the opening of the columbian series are the carrying trade and productive it also. You have said the cuty obstructions of which can a number of contents as the convention of which can a number of contents and the force and looks will be necessary are at the Cacades and the follows will be necessary are at the Cacades and the follows will be not only one of the properties of the anomal of shapping compared to what must find its outlet to the sea by state other, set in the part future you have poken of the numeral wealth of the region to be affected by your action in round millions. All these statements will sound too large for reality, will seem that the man of the millions and he great states of the east, who, may with their own.

tion to members of congress and senators from be great six test of the east, who, busy with their own affairs and the winnts of their own affairs and the winnts of their own and Wassington as has guifacant communities inhabiting a region possessing only the torsupodest resources and capabilities. If you would expect a memorial couched in such large language its be regarded in our other light than as the greatly world require the memorial couched in a particular of an assemblance sector mainly the as the greaty overdrawn and instrained letterations of an assemblage seeking mainly the benefits to be derived from the debursement of appropriate is of the public money, you must make such ip which it that the facts to be gathered and tabulated by your committee on statistics may be presented to on statistics may be presented to on gives and to congressional committees by he meant terminant error and celegates from the state and terminance training and celegates from the state of the first may be presented in such authority form as shall preclude to idea of help being exaggerations. They must appear to be what to deed they are the careful statements of sincere and pausets in the subject carefully, and with a sincere eldered the subject carefully, and with a sincere

greations. They must appear to be what to teed they are the carefully and with a successible and panetalt up desired men who have considered the subject carefully, and with a successible of presenting in their memoral no general statement which will not be fully at ported by the deta led facts on which it is predicated how members must be able to show by stated how members must be able to show by stated how members must be able to show by stated how members must be able to show by stated how members must be able to show by stated how members must be able to show the correctness of which its mounters lee their honor pledged, that the \$\sigma \text{complete} and the correctness of which its mounters lee their honor pledged, that the \$\sigma \text{complete} and the correctness of which its mounters lee their honor pledged, that the \$\sigma \text{complete} and much greater than that of several states of the Union - so not a creation of magination that there are by the public survey so many in (alliam Morrow, 1) mathly, walls Wala, Klicktat, Jakima, Whitmas etc. Till all the vast area of this near and fertile egion is exhibited in detail, and fixhen that "done, Mr President, whatever in ye he its effect on congressional action, it will clearly appear that he statement in the memorial is rather under that nakeye the truth And when that course is taken—that boot of evidence presented—with respect to the other statements in the memorial, the tenance of our great river with its prespective increase, the actual con it

being opened to ravigation throughout its length, the mineral wealth along its banks when this led one it will be seen at once that we have not overfirawn the facts and do not overesumate the importance of the work we ask to have done. e don a. arloud statements have been published as to

bave not overfrawn the facts and do not averessemate the migratance of the work we ask to have don't.

I arious statements have been published as in the amount of cereals—wheat, on and barley—which we had been published as in the amount of cereals—wheat, on and barley—which we had been published as in the amount of cereals—wheat, on and barley—which we had been published as in the amount of cereals—wheat, on an in the prefix alternate information of the crop who had been published by the prefix ago was considered worthless for farming purposes. And yet in those parts of the country that are the most thickly wither much he larger part not the twentieth nor the fiftest nore is under the plow, while in much he larger part not the twentieth nor the fiftest nore is under the plow, while in much he larger part not the twentieth nor the fiftest nore is under the plow, while in much he larger part not the twentieth nor the fiftest nore is under the plow, while in much he larger part not the twentieth nor the fiftest nore is under the plow, while in much he larger part not the twentieth of the primaportation can be obtained we may fall in the first so not far ostant when if these transportation can be obtained we may fall in the present of the country rows in population. The first is not far ostant when if the primaportation is not of the safe that will result from the diefershed in dustried that will result from the diefershed in dustried that will arse as the country grows in population.

We calm preceding the best of the (accades may feel it in a seckelly (and those who live on the other side the tuble churses as not be obtained and there has been not of the safe of the country. We no feel of the work opposed to the work opposed to the work opposed to the work opposed to the work opposed for the first of the country about the in a many the business men of that clay that for the latertor to her docks at each of apathy about the interior to be tooks at each of apathy against all the interior to be tooks at each of a ma
